WHO WE ARE

Vision

YPR envisions a world where all young people in or seeking recovery will be provided with the tools and support that allows them to successfully take charge of their futures.

Mission

Our national leadership team creates and cultivates local community-led chapters through grassroots organizing and training. Chapters support young people in or seeking recovery by empowering them to obtain stable employment, secure suitable housing, and continue and complete their educations. Chapters also advocate on the local and state levels for better accessibility of these services and other effective recovery resources.

START A YPR CHAPTER

Bring recovery resources to your community by launching a new YPR chapter. Our national organization will work with you to make sure you have all the resources and leadership development you need to be successful. YPR chapter leads enjoy all the benefits of membership as well as overseeing all outreach and advocacy activities for their local chapters, direct official YPR programming, attend the YPR National Leadership Conference and more.
